DESERTED WIFE SENT TO FRIENDS

Mrs. Crenshaw Given Transportation to Deanfield While Efforts are Being Made to Find Husband

BELIEVED HE WILL RETURN.

Mrs. Sallie Crenshaw and her seven-year-old son who came to Paducah Monday from Carbondale, Ill., and patiently awaited the arrival of Mr. Crenshaw, who promised on sending them here to follow at once, were taken to the city hall yesterday and given transportation to Deanfield, Ky., by the city.

"At the depot Mrs. Crenshaw talked freely to attaches concerning her case, and it is the general opinion that the missing husband has not intentionally deserted his family, but is in jail somewhere.

"Mr. Crenshaw is a drinking man," the wife admitted, "and often gets on a spree. He had not been drinking much of late, and I believed he would come to us at once." This led the depot officials to believe that he felt by the wayside enroute here and was taken into custody.

A search is still being instituted for the man, and he will be located if anywhere within a radius of 100 miles of Paducah. The wife has relatives in Deanfield, which is a small settlement near Owensboro. She was grateful to the mayor for furnishing her transportation, but it required much persuasion to shake her belief in the husband.

Ignorant at Carbondale.

Baggage-master W. A. Flowers, who wrote to Carbondale to ascertain if any baggage had been shipped from there by Crenshaw or any other person addressed to Mrs. Crenshaw, at Paducah, received a reply this morning. The letter stated that no household goods or anything whatever had been shipped, and that no one in Carbondale knew the woman or had ever heard of the husband.

The club is most appreciative of these generous donations and the interest shown in it by Mr. Burnett and Major Bloom.

HALF WEIGHT IN SUGAR.

Average American Citizen Consumed Last Year.

Washington, Feb. 9.—"The average citizen of the United States seems to have consumed one-half his own weight in sugar in the year just ended," says a statement issued today by the bureau of statistics of the department of commerce and labor. The average per capita consumption was seventy-six pounds. The amount of sugar consumed was six and one-half billions, at a cost of over \$300,000,000.

Of this enormous consumption, one-fifth was produced in this country and another one-fifth was imported from our island possession, and the remainder three-fifths, or 3,864,665,661 pounds from foreign countries.

CREDITORS' ATTORNEYS DO NOT ELECT TRUSTEES.

After filing claims and discussing probable candidates for trustee, attorneys representing creditors of E. Rehkopf, adjourned until Monday morning at 10 o'clock. Indications point to a close contest in the election of a trustee.

Rehkopf was represented in the meeting by Attorney Thomas Crice and creditors were represented by the following attorneys: Bradshaw & Bradshaw, Wheeler Campbell, W. V. Eaton, J. C. Flournoy, J. Denais Moequut and J. R. Grogan. Each filed claims, and because of the abundance of claims, Rehkopf Bagby adjourned to give attorneys time to examine them closely.

It is stated that J. R. Grogan and Cecil Reed are mentioned for trustee. The forces seem divided, and the election will be interesting. No matter of compromise in the case has been formally suggested.

S. American warship on each side of the scene of the threatened trouble.

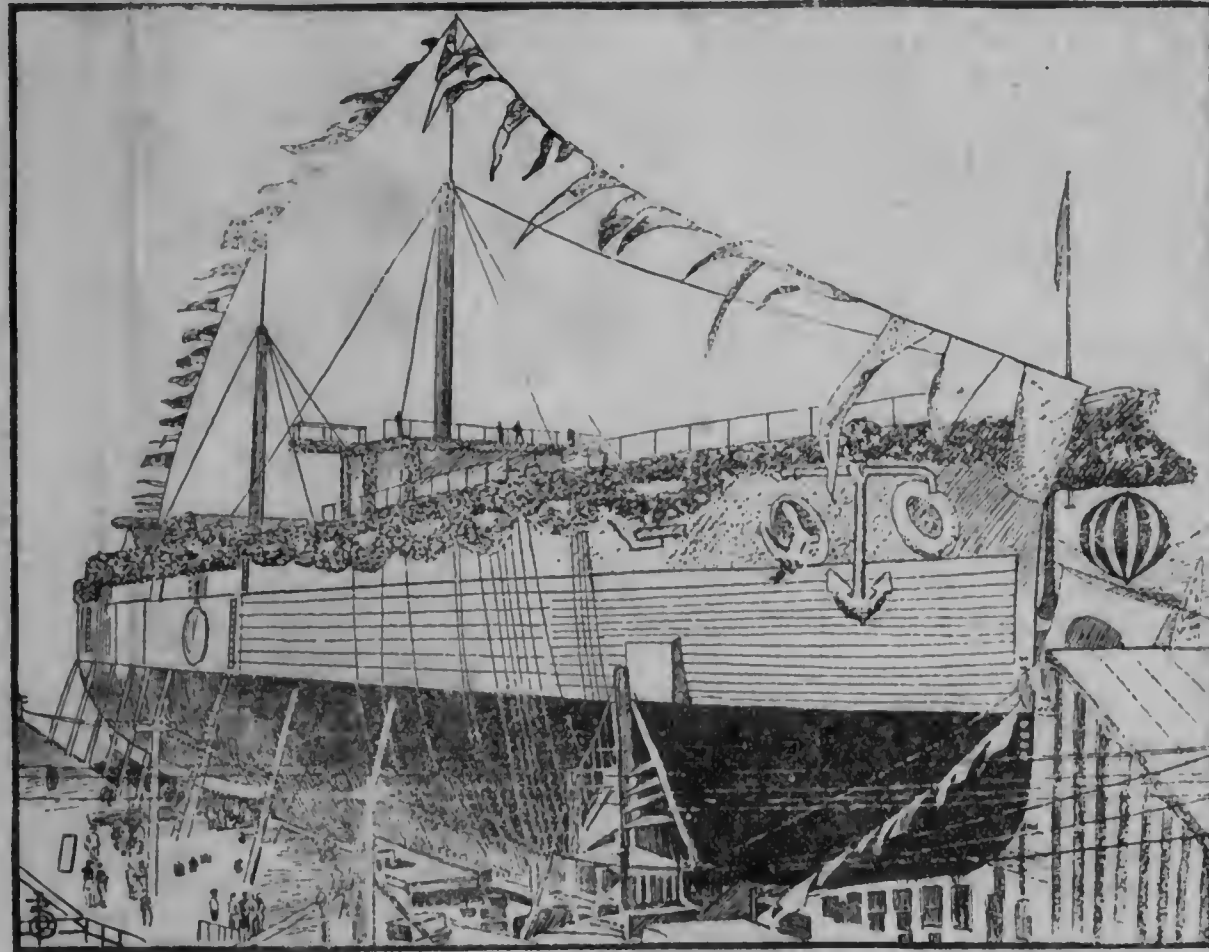

TRAIN WAS TOO FAST.

And Man on Pilot Climbed Into the Engine Cab.

While moving at the rate of 50 miles an hour Engineer Mike Kelley, on the fast flyer, No. 102, from Memphis to Louisville, saw a head protruding from the front of his engine. He next saw a pair of arms and half a body of a man was finally dragged into view on the pilot. A sickly, drunken grin spread over the man's features as he saw the engineer's frightened face. Shutting off the power the engineer applied the air and brought his train to a stand still. The man had climbed onto the pilot at Fulton. He was not discovered until several miles out of Fulton when the speed grew too great for him.

The time of the county board of tax book supervisors was today extended another five days to give them time to complete their work.

LAUNCH OF JAPAN'S GIANT BATTLESHIP SATSUMA, THE LARGEST IN THE WORLD.

Think of war between the United States and Japan recalls the fact that very recently Japan launched at one of her own shipyards the 10,200 ton battleship Satsuma, which is 1,200 tons larger than the British Dreadnought, a ship so large and powerful that she caused a flutter in every navy department in the world. The 16,000 ton Conqueror and Louisiana are the largest battleships in the United States navy, but two 20,000 ton ships are being planned. When the Satsuma was launched the paper balloon at her bow opened and released confetti, streamers and a flock of live doves.

CITY DEMOCRATS TO SET PRIMARY

Committee Will be Called Together Thursday Night By Chairman W. A. Berry for Short Conference

MANY CANDIDATES IN FIELD.

Attorney W. A. Berry, chairman of the city Democratic committee, will call the committee together next week, probably Thursday night at the city hall, to decide on the date for a city primary. It will go to Smithland the first part of the week and will not have time to attend the meeting before Thursday.

The committee will have little business before it, and the session accordingly will be brief. The date is to be decided on and committees appointed to arrange the entrance fees and other details. This year the entrance fees will be smaller because of the numerous candidates out. Daily some new applicant announces for one of the various offices, and it is fair to be the hottest primary in years.

WHITE FOLLOWED MRS. THAW IN CAB

After She Had Broken Relations With Him According To Her Testimony

PAPERS PREDICT ACQUITTAL

Artist Attempted to Renew Friendship Later When She Was Mrs. Harry K. Thaw.

ADJOURN OVER UNTIL MONDAY.

New York, Feb. 9.—Most New York newspapers are predicting the acquittal of Harry Thaw. It is believed it will take all next week to complete the testimony of Evelyn Thaw. Jerome's cross-examination of the witness which will be merciless, will consume at least three days. Court adjourned last evening until Monday morning.

White's Perfidy.
For the first time an intimation was given of the point, which if established, will probably result in the acquittal of Harry Thaw under the unwritten law, that Stanford White was unwilling to give up Evelyn even after she had become the wife of Thaw and that he sought—even after it had become evident that she was trying to live down her pitiful past—to drag her down again to the depths from which she had been lifted by her genuine love for Thaw. It was only a hint, but it caused every juror to bend forward with intensified eagerness. The little wife of the prisoner had been on the grill all morning, listening to much tiresome wrangling over the admissibility of evidence, and it was not until near the noon adjournment that she was able to give any testimony of real weight.

Aside from this little straw which indicated the direction which a case may sweep down on the case of the state, the most interesting testimony of the morning session was the story of the attempt by White assisted by Lawyer Aho Hummel to denounce Harry Thaw as a blackmailer.

Mrs. Thaw testified that other girls had been wronged by Stanford White, the architect whom her husband slew in Madison Square garden last June. Mrs. Thaw testified that she had told her husband, Harry Kendall Thaw, the prisoner, that other girls had met the fate that was meted out to her by the architect in his studio when she was 16 years old.

"Tattle of the Tenderloin."
District Attorney Jerome, who had throughout silently listened to Mrs. Thaw's statements, sent a thrill of excitement through the court room late in the day by jumping to his feet and vigorously protesting against "this defamation of the dead."

In tone bitterly sarcastic, Jerome spoke of "this tattle of the tenderloin" declared that the court had the right to limit such testimony "until competent evidence has been adduced to show that this man is, or was, of unsound mind. We don't know whether this defendant ever was insane" he concluded.

The question which called out vehement protest from the district attorney was addressed to Mrs. Thaw by Delmas and its purport was whether or not Thaw had at any time told her about "other girls who

The Woman Hater.

"Why is it that old ladies are so fond of parrots?" said Harry Beresford, who will be at The Kentucky on Wednesday, February 20, in "The Woman Hater." "I could never figure it out. I remember one day on the Strand I happened into a bird fancier, and while I was there an old lady came in with a purple face and a parrot.

"Look here," excitedly exclaimed the old lady, "I want you to take back this parrot you sold me. I find that it swears very badly."

"Well, madam," snubly replied the fancier, "you must remember that this is a very young bird. When it's a bit older it will doubtless learn to swear better."

STANDARD OPERA CO.

Opens at The Kentucky for Two Nights, February 13 and 14.

Ballo's tuncful and popular opera, "The Bohemian Girl," has been selected by the Standard Opera Company for their offering at The Kentucky on the opening night, Wednesday. The company contains a number of unspooled American voices, and has the advantage of the wise judgment and large experience of Mr. Cecil De Mille, the well known stage manager and playwright. Mr. De Mille in addition to his other gifts is a clever comedian and is endowed with a pleasant voice, and will sing the part of the young Florestan. In placing Miss Pauline Perry in the role of Arline, the fact that her girlish and winsome appearance, no less than her charming soprano, fit her for the role, seems to have been recognized. That same remark obviously must be made about Miss Clara Hunt, whose presence and vocal endowment both point her out as the logical Gypsy queen of the company. Mr. Howard will make a good Thaddeus, and Mr. Natanson's excellent baritone ought to be heard to excellent advantage in the congenial part of Count Arnheim. In the plot of "The Bohemian Girl," the heroine is Arline, the daughter of Count Arnheim, governor of Presburg, in Austria. She is stolen in childhood by the gypsies and reared in ignorance of her birth. While with the gypsies she is wooed and her heart is won by Thaddeus, a young Polish noble, driven from his home into hiding by the Austrian soldiers. Unluckily, the gypsy queen also loves Thaddeus, and when she learns of his affection for Arline, she plots vengeance. She arranges things so that Arline is arrested and charged with theft. But when she is taken for trial before her own father, facts speedily develop which compel the count to recognize in his prisoner his long-lost daughter. In the last act Thaddeus claims his promised bride from the count, and after convincing the latter that he is no gypsy but really a Polish noble, the count reluctantly consents. Even the gypsy queen's attempt to assassinate Thaddeus on the eve of his wedding fails, and she herself is stricken to death by the bullet meant for Thaddeus. The music of the opera has long been admired, and the Standard Opera Company will beyond doubt sing it in a manner that will give pleasure to all who hear it.

WAS HYPNOTIZED AND MADE TO STEAL

Strange Story Comes From The Kenosha Courts

Lichtenteller Leads Farmer's Daughter to Desert House and Follows His Fortunes.

GIRL IS RELEASED ON PLEA.

Kenosha, Wis., Feb. 9.—On the ground that the girl was hypnotized and therefore not responsible for her actions, District Attorney Baker and Chief of Police Hare today released on parole Annie Rumble, aged 18, who had been held as an accomplice of Fred Lichtenteller, said to be a notorious thief. It is claimed Miss Rumble is completely in the power of Lichtenteller.

The girl is a daughter of Charles Rumble, a Lake Geneva farmer. When she was 16 Lichtenteller began working as a teamster in the neighborhood. Since the day he met her, it is claimed, she has been a slave to him.

Lichtenteller is a former convict, but notwithstanding this, after Miss Rumble had known him a few days, she accompanied him to Kenosha to be married to him. Her father reached Kenosha in time to prevent the marriage, but could not force the girl to return home with him. When she did finally return she remained but a short time and then fled in the night to join her lover.

Before the coming of Lichtenteller, it is said, the girl had been of a religious nature, but she was unable to overcome his influence over her. Miss Rumble admitted she had been with Lichtenteller in several robberies and had resided with him for months.

Many letters which passed between the two were seized by the police, and these showed the power the man had over the girl. Miss Rumble bared her heart to the man in these letters and pleaded with him to release her from the spell that bound her.

When she was arrested Lichtenteller was in Milwaukee, but she managed to telegraph him to flee, and he has not been captured. The young woman returned to Lake Geneva with her father this afternoon. Bonds had been furnished to assure her appearance in court when demanded.

Rapidly the river is falling now but not too fast. It will be well for the river to be as low as possible for navigation, before the spring rise sets in. The largest fall since the river began falling was registered for the last 24 hours, 2.5 the stage being 32.2. Business at the wharf this morning was rushing.

Passing at this point, both the Peters Lee from Cincinnati and the Georgia Lee from Memphis had good trips today.

The Dick Fowler had a good trip in from Calo last night and got away for the same point this morning on time.

A goodly portion of the freight on the wharf today was marked for the Kentucky for shipment up the Tennessee river. The Kentucky will leave this evening at 6 o'clock.

Several thousand split bottom chairs were brought down by the John S. Hopkins yesterday for local concern. The "stove circle" who congregate wherever they will be tolerated on the river front and chew tobacco, spit and tel yarns, in fact, do everything but work, watched the unloading of these chairs with wistful eyes—for they were standing. The wharf was so busy they could not sit on a box long at a time before some rouser was coming after it for a boat.

The Joe Fowler will arrive tonight from Evansville and probably will leave early Sunday on the return trip.

The Buttorff will come in Sunday night from Nashville and wait until Monday noon before leaving for Clarksville.

The John S. Hopkins probably will arrive some time Sunday from Evansville.

Well Known Here.

Charles L. Wilson, of Paris, Tenn., a freight conductor on the Louisville & Nashville railroad, was run over at Cumberland City Thursday and both his legs were cut off. He died a short while after from the shock. His train broke loose and he was standing on the front platform of the caboose attached to the rear section. In some way he fell beneath the cars, the front trucks of the last car passing over both legs and severing them from the trunk.

Mr. Wilson was 30 years of age and one of the best known young men in the service of that railroad. He married Miss Nell Moore, a daughter of Rev. Dr. Warner Moore, who, with their son Charles Warner Wilson, survives him. Dr. Moore was formerly presiding elder of the Methodist church in the Paducah district and he and his daughter are well known here.

Preacher Hits Pulpit, Breaks Hand.

Logansport, Ind., Feb. 9.—"Awake, thou that sleepest," was the text from which Rev. A. A. Mainwaring, Logansport Baptist pastor, spoke at a revival in Kentland, incidentally he brought his fist down upon the pulpit with such force as to fracture the small bones of the hand. While suffering pain, he continued until there had been three conversions.

Treasures Found in Our American Forests.

That our American forests abound in plants which possess the most valuable medicinal virtues is abundantly attested by scores of the most eminent medical writers and teachers of this and other countries. Even the untutored Indians had discovered the usefulness of many native plants before the advent of the white race. This information, imparted freely to the whites, led the latter to continue investigations until to-day we have a rich assortment of most valuable American medicinal roots.

Dr. Pierce, of Buffalo, N. Y., believes that our American forests abound in medicinal roots for the cure of most obstinate and fatal diseases. If we would properly investigate them, and, in confirmation of this conviction, he points with pride to the most marvelous cures effected by his "Golden Medical Discovery," which has proven itself to be the most efficient stomach tonic, liver invigorator, heart tonic and regulator, and blood cleanser known to medical science. Dyspepsia, or indigestion, torpid liver, functional and even valvular and other affections of the heart yield to its curative action.

The reason why "Golden Medical Discovery" cures these and many other affections, is clearly shown in a little book of extracts from the standard medical works which is mailed free to any address by Dr. R. V. Pierce, of Buffalo, N. Y., to all sending request for the same.

To aid in healing old sores, or ulcers, apply Dr. Pierce's All-Healing Salve to them while taking the "Golden Medical Discovery" to purify and enrich the blood. Dr. Pierce's All-Healing Salve is cleansing and pain relieving. It draws out the bad humors arising from suppurating, or running, sores and puts them in the best possible condition for healing.

The "All-Healing Salve" is a superior dressing for all open, running, or suppurating, Sores or Ulcers. For healing open wounds, cuts and scratches it is unsurpassed.

If your medicine dealer does not have the "All-Healing Salve" in stock mail 50 cents in postage stamps to Dr. R. V. Pierce, Buffalo, N. Y., and you will receive it by return post.

In treating all open sores, or ulcers, boils, carbuncles and other swellings, it is important that Dr. Pierce's Golden Medical Discovery be taken persistently to purify the blood and thereby remove the cause of the trouble. It is in the blood that the great battle of health has to be fought. The clear and the pure are simply the scarlet flowers of disease, with roots running down into the blood.

These roots must be eradicated or the disease will break out afresh. "Golden Medical Discovery" cleanses the blood of all foul and poisonous accumulations, pushes out the dead and waste matter, and thus purifies the entire life current. Disease in the flesh must die out when it is no longer fed by foul blood. "Golden Medical Discovery" effectively cures disease in the flesh by curing its cause in the blood.

Not less marvelous, in the unparalleled cures it is constantly making of woman's many peculiar affections, weaknesses and distressing derangements, is Dr. Pierce's Favorite Prescription, as is amply attested by thousands of unsolicited testimonials contributed by grateful patients who have been cured by it of catarrhal pelvic drainage, painful periods, irregularities, prolapsus

making such officials liable for murder in the second degree in cases of avoidable accidents.

The Week In Society.

FEBRUARY.

Today, while yet the trees are bare,
A hint of spring is in the air;
And merrily the streamlets flow,
Unlocked at last of ice and snow
That melt and disappear.

I saw, at dawn of morn today,
The wild geese on their northward
way
in tireless flight go wedding by,
Midway between the earth and sky—
A sign that spring is near.

Along the eastward-sloping hill
Some winter snowdrifts linger still,
But warm winds from the southland
blow,
And soon the blossoming land will
know
That spring is with us here.

At the Threshold of Lent.
Notwithstanding the week began with a "Social Whirl"—at the Kentucky theater—and although it has been marked by a number of pleasant and some notable affairs, yet it has hardly been as crowded as one expects these last pre-Lenten days to be; and there is every prospect of a quiet slipping into Ash Wednesday for the coming week. Perhaps, Lent has stolen upon us unaware in its earliness this year, and we had not thought it time for donning Polly's gay and pretty frocks and donning the more demure sackcloth and ash effects. At any rate the change promises to be less marked than usual for Paducah society.

Stag Box Party.
Mr. Joseph L. Friedman was host of a stag box party last evening at the Kentucky theater to see Henry Dixey in "The Man on the Box." In the party were: Messrs. George Wallace, Muscoe Burnett, Saunders Pow-

er, Charles K. Wheeler, John Keller and Joseph Friedman. Mr. Friedman entertained the party with a delightful supper after the play, at the Keller home on West Broadway.

Schwarz-Loeb Nuptials.
Of more than local interest is the approaching marriage of Miss Minnie Schwarz, of Oklahoma City, Okla., to Mr. Sydney H. Loeb, on St. Valentine's Day, a day suggestive of the union of hearts. The wedding will be solemnized at the residence of the bride's parents, Mr. and Mrs. L. Schwarz, and will be a beautiful home affair. Miss Schwarz will make a popular addition to Paducah's society, being identified in her home city for her genuineness, her sterling worth and her striking beauty.

Mr. Loeb represents one of Paducah's oldest and best families, he is a member of the large wholesale whiskey establishment of Loeb, Bloom & company, and is one of the successful young business men of the city.

After an extended wedding trip to Washington, Niagara Falls and New York, they will be at home the first of March.

Mr. Loeb will leave Sunday for Oklahoma City. Mrs. Reinben Loeb and Mr. Joseph Loeb will leave on Monday; they will be joined in St. Louis by Miss Florence Loeb, who is attending a college of music in Indianapolis and will go direct from there to Oklahoma. Mr. Joseph Loeb will be his brother's best man.

Paducah Guests at Handsome Nashville Party.

Thursday's Nashville Banner says: "One of the most elaborately planned and beautiful hostesses of the pre-Lenten season was the bridge luncheon given by Mrs. Alton D. Wade at 1 o'clock today to compliment Miss Irene Kirkpatrick. The bonoree is a debutante of the year who has been a central figure at several handsome hostesses, and asked to meet her today was a company of thirty of the married element. The details were exceedingly elegant, and the decorations included a profusion of flowers. The nine luncheon tables at which the guests were seated for a delightful menu, were handsomely set, and each had for a floral centerpiece a dainty wicker basket filled with flowers and smilax, a different color being used in each apartment. The luncheon was served in five courses with wines and it included a game course, a tempting new pineapple salad served in rings of the fruit garnished with smilax and other delicacies. In the subsequent bridge game, the prizes presented were a handsome cut-glass pitcher for the guest making the highest score of the afternoon, and a silver topped talcum powder case, presented as a consolation souvenir. The out-of-town guests were: Mrs. Robert Hecker Phillips, of Paducah and Mrs. John S. Bleeker, of Paducah."

U. D. C. Chapter.
The Paducah Chapter, United Daughters of Confederacy met on Tuesday afternoon with Mrs. James M. Buckner, of Jefferson street. Besides the usual routine business, there was some war reminiscences of Paducah interestingly given by Mrs. W. G. Whitefield. Mrs. Lela Wade Lewis sang very delightfully. An attractive luncheon was served.

Surprise Party to Mr. and Mrs. Ferd Hummel.

A social club of young people of the German Lutheran church, gave a pleasant surprise party to Mr. and Mrs. Ferd Hummel, at their home on Harrison street on Tuesday evening. It was a tacky party and the costumes were very original and unique. The prizes for the most ridiculous were captured by Miss Annie Berger and Mr. Gus Weiman. The evening was enjoyably spent with games, and refreshments were served. Among

those present were: Mr. and Mrs. George Warner, Mr. and Mrs. William Rotterger, Mr. and Mrs. Geo. Baker, Mr. and Mrs. John Bigh, Mr. and Mrs. O. D. Schmidt; Misses Sophia Baker, Katie Baker, Freda Dunbar, Hattie Dunbar, Josephine Bundesman, Annie Bundesman, Annie Meman, Elsie Hoewelcher; Messrs. Gus Weiman, George Steinhauser, Rev. Paul Hente, of St. Louis.

Card Party in Honor of Mrs. Sanders.
Complimentary to Mrs. William D. Sanders, of Columbus, Miss., Mrs. Hughes McKnight and sister Miss Sarah Sanders entertained with a handsome card party on Wednesday afternoon at the Palmer House. The 22 tables were arranged in the dining room of the hotel. After the game a delightful 3-course luncheon was served. An orchestra played during the luncheon. The first prize, a hand-printed china dish was won by Mrs. Wheeler Campbell in a cut with Mrs. Wynne Tully. Miss Clara Park took the lone hand prize, a hand-painted plate. The visitor's prize, a lunch cloth, went to Mrs. S. C. Green, of Henderson. The guests of honor prize was a brass candle stick. The game score was kept by Miss Kate Crumbaugh and Miss Belle Cave.

"Ulysses" a Great Dramatic Recital.
The coming of so notable a reader as Prof. S. H. Clark, of the University of Chicago here in March, is one of the distinct literary events of Paducah and the Woman's club is to be congratulated on making its initial bow in so delightful a way. That he will give Stephen Phillips "Ulysses" is by no means a secondary consideration, either. Of his rendition of this a Salt Lake City paper says:

"We cannot help remarking here, by way of parenthesis, upon the real advantages of such a recital over even the best stage presentations. In this dramatic recital of "Ulysses," there was nothing to distract the attention from the thought and feeling of the play, and every line, moreover, was read by a master. So the audience was able to follow, in imagination, the wanderings of Ulysses. They were able to see the dreamlike inactivity upon the island, the descent through hell, the rousing of his marvelous powers to avenge himself upon the ignominious herd of suitors to his wife Penelope, the humiliation scene at his own hearth, all these were realized in a way that only imagination can know. On the whole, therefore, those who heard this great recital will never forget the impressions made upon them by the genius of the author and the genius of the interpreter."

Entre Nous Club.

Miss Lillie Mae Winstead was hostess to the Entre Nous club on Thursday afternoon at her home on Washington street. The club prize was won by Miss Nell Holland, who cut with Miss May Owen. Mrs. David Vnn Culin captured the visitor's prize and Miss Lillie Powell, the lone hand. A delightful course-luncheon was served after the game. Only the regular three tables played, the five visitors being asked to fill club vacancies.

Pretty Valentine Clutch Party.

Mr. and Mrs. F. D. Dunant gave a very delightful Valentine clutch party on Wednesday evening at their home on Adams street. The house was effectively decorated with valentines, the comic ones being used in the hall and parlor, while the red heart valentines were attractively arranged in the dining room. The 4-course luncheon was a pretty elaboration of the red valentine motif. The first prizes were won by Miss Flora Glauber and Mr. John Dipple. Miss Flora Pettit and Mr. F. N. Gardner captured the booby prizes. The guests were: Mr. and Mrs. Oscar B. Starks, Mr. and Mrs. George Katterjohn, Mr. and

Mrs. Charles Fisher, M.E. and Mrs. Herbert J. Jeffrey, Mr. and Mrs. John Dipple, Mr. and Mrs. F. N. Gardner, Mr. and Mrs. C. Sherer, Mr. and Mrs. Wm. J. Rye; Misses Flora Pettit, Flora Glauber, Emma Morgan.

Magazine Club.

Miss Kathleen Whitefield was hostess of the Magazine club on Thursday afternoon at the home of the president of the club, Mrs. Bertie Fowler Campbell. It was a very delightful meeting. The roll call was responded to with current events. Mrs. Hal S. Corbett reported from the Saturday Evening Post. Mrs. Vernon Bythe featured Harper's Magazine. Miss Frances Gould gave interesting resume of the Outlook. From the Literary Digest, Mrs. Victor Voris discussed the Metropolitan Opera House in New York. Miss Julia Scott sang very delightfully. A prettily appointed luncheon was served in several courses.

Delphi Club Reception.

The Delphi club entertained with a delightful reception on Thursday evening at the Carnegie library assembly rooms. The Spanish colors, yellow and red, were attractively used in the decoration of the rooms. The refreshments were orange ice with Maraschino cherries and individual cakes iced in yellow and red. This was in compliment to the club study for the year having been Spain. The informal musical and literary program was Spanish in theme, and delightfully in character. A number of guests were present.

Matinee Musical Club.

The Matinee Musical club held a very pleasant meeting on Wednesday afternoon at the parish house of Grace Episcopal church. The program was a miscellaneous one and a number of attractive piano, violin and social numbers were rendered. Miss Jennie Gilson gave an interesting paper on "Music During the First Two Years of the Christian Era." Miss H. S. Wells was the leader.

Entertainments at High School.

Louis Spencer Daniel, of Lebanon, Tenn., gave a series of monologue entertainments on Thursday afternoon and evening at the High School auditorium. It was a song and story recital in which Mr. Daniel is especially clever. In the evening his readings were from "Stringtown on the Pike," and Mr. Daniel is very happy in dialect. He was greeted by large audiences.

Carpe Diem Club.

The Carpe Diem club was pleasantly entertained on Thursday evening by the Misses Pieper at their home on North 13th street. The rooms were prettily decorated with pink and white carnations and these col-

GREATER PADUCAH DAY.

Having decided to set apart a day
to be observed as "Greater Paducah
Day," when a preconceived idea for
raising funds necessary to exploiting
the city's advantages, and a well or-
ganized plan for the amalgamation
of local spirit shall be executed, the
next duty devolves upon us to make
it a "Greater Paducah Day," by en-
citing doing his share toward the
success of the enterprise. The fact
that you did not originate the idea
does not excuse you from participat-
ing and doing your allotted share.
There can be nothing behind such an
idea but public spirit, and such en-
thusiastic public spirit must be en-
couraged. Louisville has been ex-
ploited more in the last 24 months
than in any former period of her his-
tory, not associated with some disas-
ter, and all through the Commercial
club. Her Home Coming week, the
state fair, the coming Greater Louis-
ville exposition, and a dozen minor
affairs have all been promoted
through her Commercial club, which
has found time to push through a
\$2,000,000 sewer bond scheme, and
nobody cried fraud and nobody kick-
ed because the fellows who worked
hardest were at the head of things.

Considering her size, Paducah has
more this year to encourage the sort
of spirit that finds expression on
"Greater" events, than has Louis-
ville. Things are looking up in Pa-
ducah. Some factories have made ex-
tensions; we are about to get a big
glass plant; the railroad shops have
been busier than ever before; a big
grain elevator indicates that the
Louisville & Nashville railroad is
looking this way; articles of incor-
poration show that other people see
a transportation future here; the Big
Four and the Burlington railroads
are working engineering corps con-
stantly to find the most available
route from Harrisburg across the
river; the steamboat business is im-
proving; building trade in Paducah
is promised a record year for 1907,
and the whole population seems alive
to prosperity.

This is the tide, which we must
take at the flood in order to realize
all the good that is in store for us.
The Commercial club is heading the
right sort of movement, and it is the
duty of the rest of us to go along.
If the Commercial club doesn't suit
you, that is nothing. Help this
"Greater Paducah Day" idea and
then do not relax your efforts until
the Commercial club is brought to
the state of perfection, which you
would desire.

It is one of the characteristics of
such an organization as a Commer-
cial club, that it will be just as good
as the rest of the citizens will allow
its members to make it.

It is gratifying to THE SUN to
learn that the Woman's club intends

to make the charity department a
permanent institution. There is
nothing more pernicious than indi-
vidual charity. Nine-tenths of it
goes to those who should be earning
their living and a meager tenth to
deserving poor, who thereby do not
receive half the attention their con-
dition warrants. Real charity of the
practical sort should consist chiefly
in enabling people to support them-
selves, not in pauperizing them. Peo-
ple who give in response to every
pitiful tale that is told them may be
kind hearted and lovable; but they
are putting premium on the local
fiction market and encouraging the
arts of the vagabond and rogue. With
a permanent organization the Char-
ity club may be able to keep many
of the poor employed and arrange so
that they will not be public charges,
at least, to so great an extent as
heretofore, when winter comes
again; and the club itself will be in
better condition to meet the demands
cold weather always brings. Even in
cases of charity, prevention is cheap-
er and better than relief, and this
is the chief end of the Charity club.
The free kindergarten, the employ-
ment bureau and like departments go
hand in hand with the enterprises
of the organization.

The esteemed Cairo Bulletin by
comparing the police record of that
city for January with Paducah's un-
dertakes to show that this city is
more immoral, the argument is pre-
dicted on the excessive number of
drunk and disorderly cases here.
Cairo has more plain drunks and va-
grancy cases. That only goes to Jem-
onstrates the difference between Illi-
nois and Kentucky whisky. The for-
mer stupifies and then pauperizes,
while the Kentucky brand puts fire
and energy in its victim—misdirect-
ed sometimes, to be sure, as the po-
lice records show, but at that, more
to be desired than the stupefaction
so manifest in the city below.

Whoever finishes the Panama can-
al, we are quite certain Senator
Morgan will be in at the finish with
some complaint.

THE MILK PROBLEM IN MANY
CITIES.

Aside from the question of the re-
sponsibility of milk as the agent in
the present local epidemic of scarlati-
na, there is here as elsewhere a
permanent "milk problem." Physi-
cians are emphasizing the fact that
milk is an exceptionally good culture
medium for bacteria of various
kinds, and that as a propagator and
disseminator of disease it has few
equals. In many cases typhoid has
been attributed to water where con-
taminated milk has really been the
cause of it. In a pamphlet issued
some time ago by our own board of
health attention was called to the
specific diseases disseminated by pol-
luted milk, and the following senti-
ence was added: "But what is of
vastly more consequence is the pres-
ence of bacteria capable of develop-
ing toxic substances in milk that
cause a large mortality among in-
fants and young children, especially
in the summer months."

A medical authority points out in
a current periodical that in attempt-
ing to regulate the milk supply the
great difficulty encountered is that
the business really consists of two
separate businesses—dairying and
distributing. Milk cannot be exam-
ined as delivered from door to door,
and, as regards disease, inspection of
the dairies and depots does not by
any means exhaust the process.

Some would abolish all competi-
tion in supplying milk, to remove the
temptation of diluting it. Others fa-
vor municipalization of the whole
business. Still others would compel
sterilization or even pasteurization—
a process of heating milk in ma-
chines in this layers fully exposed to
the air. In London, however, experts
and citizens connected with an in-
fant health society are protesting
against municipal sterilization plants
on the ground that sterilization not
only deprives milk of a considerable
proportion of its nutritive properties,
but renders it in some respects pos-
itively unwholesome. The boiling of
milk in private houses is recom-
mended by some and inveighed
against by others, the latter holding
that boiled milk renders infants us-
ing it more liable to rickets. To pas-
teurization, too, objections are ad-
vanced, one physician declaring that
"it is quite possible to make milk
worse instead of better by this pro-
cess." Too much, it seems, depends
on the operator, who may lack the
necessary skill and patience.

It is generally agreed, however,
that much more can be done than
has been done by state and local reg-
ulations.—Chicago Record-Herald.

BRADSTREET'S

New York, Feb. 9.—Bradstreet's
weekly report follows:

Business booked by wholesalers
for January and the elapsed portion
of February is fully equal to, and in
some markets and staples notably
cotton dry goods, far in excess of
last year's undeniably large business.
Building activity has been checked by
unfavorable weather conditions.

Pig iron is easier on business for
future delivery. Indications in this
respect being most marked at eastern
centers, yet there is a good deal
of inquiry in the west, particularly
for malleable Bessemer, for deliv-
ery in the second half. Tin plate for
third quarter delivery commands a
premium of 10 cents per box.

A full movement in wheat and
other grains were strengthened fur-
ther this week and prices are up to
an average of 2 cents a bushel at all
markets. Car shortage is being keenly
felt at western milling centers, and
Minneapolis flour production is
down to a low point owing to light
supplies.

Congestion in the manufacture
and marketing of Cuban sugar is re-
flected in the further easing of raw
prices, which are off 8 points, while
refined is 15 points lower in sym-
pathy. Coffee is steadier and spot coffee
is back to 7 cents.

Failures in the United States for
the week are 198 against 204 in cor-
responding week of 1906; in Canada
18, against 27 this week a year ago.
Wheat, including flour, exports for
the week, 3,320,000 bushels, against
3,241,000 this week last year; for
the past 32 weeks of the fiscal year
113,383,000 against 86,969,000 in
1905-06.

Corn exports for the week, 2,407,-
000 against 3,661,000 years ago;
for the fiscal year to date 35,637,000
against 72,089,000 in 1905-06.

FALLS UNDER CAR;
POLICE TO RESCUEA Small Negro Boy Beasily
Drunk, Almost KilledCame From Mayfield and Companion
Piled Him With Liquor Until
Helpless.

REPRIMANDED IN THE COURT.

James Brown, a twelve-year-old
negro from Mayfield, was snatched
from certain death under the wheels
of passenger train No. 101 Friday
evening at 6:20 o'clock at Union
station by Patrol Kirk, special police-
man for the Illinois Central, and
taken to the police station to sleep
off a "jag" which had rendered him
insensible. The negro was limp, and
so full of bad whisky that it poured
from his mouth while he lay in the
jolting patrol wagon en route to po-
lice headquarters.

Brown came here with three or
four negroes from Mayfield yesterday
with \$1.20 in cash. He remembers
spending 10 cents for a piece of sau-
sage—after that all being blank. He
did, after Police Judge D. A. Cross
refreshed his memory, remember
that a negro, named Napoleon, gave
him whisky, but had conveniently
forgotten the negro's other name and
everything else about him. When
the boy awoke today he was penni-
less.

Brown was first seen at the Union
station drunk just before train time.
He staggered against the wall and
remained there, swaying from side to
side, but quietly holding his peace
and avoiding the policemen.

When the fast passenger train
pulled in he remained against the
wall until it started to leave. Then
with a stagger he made for the fast
moving coaches.

Patillo Kirk was standing near the
general waiting room door and saw
the negro staggering towards the
train. Realizing that he would fall,
the special officer reached him just
in time to pull him out by the leg.
Police Judge Cross, after a reprimand,
dismissed the boy.

Patrolman Hurley Active.
Patrolman Aaron Hurley started
for the negroes who accompanied the
boy, but they ran. He managed to
land a sound blow on one's head
with his club. The negro went down,
rolled a short distance, quickly rose
and continued running. Patrolman
Hurley had thrown his club at the
fast flying form, and having been ill
was unable to give chase.

GOVERNMENT SWEAT SHOP.

Place Where Money is Made Worst
in States.

Washington, Feb. 9.—In a letter
to Speaker Cannon, Secretary Shaw
says of the building in Washington,
occupied by the bureau of printing
and engraving: "I doubt if a worse
sweatshop exists on earth than the
factory in which the government
manufactures its money, bonds, in-
ternal revenue and postoffice stamps.
The condition of the employees, es-
pecially in summer, is well nigh un-
bearable and every consideration
pleads for improvement." The house
committee on buildings and grounds
will conduct a hearing tomorrow on
a bill providing for a new building
to accommodate this bureau.

WANTED—We have a large list
of ready buyers and have been
advertising from time to time for such
property as is wanted. In today's
want column we are giving descrip-
tion of such properties as we need
immediately. If you can supply our
needs call telephone 127 and give us
prices. H. C. Hollins, Real Estate,
Truheart Building.

What Osteopathy Will Do.
There are but few people who have
not heard of Osteopathy, also of
some of its achievements. But there
are far too many who have accred-
ited it with being good for only those
conditions from which they have
been cured, or which have come un-
der their observation. Not infrequently
there is mutual surprise when one
who was cured of rheumatism meets
another who has been cured of asth-
ma or constipation. This is a homely,
but very true illustration.

Personally, I have cured chronic
cases of constipation, rheumatism,
asthma, nervousness, neuralgia and
headaches for people whom you
know well, and the value of the Os-
teopathic treatment is but coming
generally known in Paducah, as it
should be.

I should like to talk with you at
any time about your particular case,
and know I can cite you to some of
your friends who will attest to what
the treatment has done for them in
similar diseases. Come to my office,
516 Broadway, or phone 1407 any
time from 9 to 12 or 2 to 5 p. m.

HOSPITAL

CONDITIONS FOUND SATISFACTORY IN EVERY WAY.

After a review of business in the Paducah Illinois Central hospital for the past quarter, and an inspection of the improvements the members of the executive board left Paducah for their quarters.

"We found the hospital in excellent condition, and the board paid a high tribute to Dr. R. E. Barle, the resident physician, and to Assistant Chief Surgeon D. G. Murrell, Supt. A. H. Egan stated "The management of the institution has been perfect, and we are pleased to note the conspicuous decrease in deaths, and the scarcity of patients."

The Illinois Central is always on the alert to improve sanitation and all matters to better health of employees. The fact that it willingly agreed to pay a sewerage estimate of many thousand dollars to get sanitary sewers extended to the local shops is indicative of the expense it is willing to go to in order that perfect health be assured.

Woman's Club.

One branch of the Philanthropic department of the Woman's club, makes a specialty of the distribution of literature, and under the direction of the chairman, Mrs. James P. Sleeth, has already done an excellent work far-reaching in results. The object is to place magazines and periodicals of a high order within the reach of those who could not get them, and are not apt to go to the Carnegie library for their use. Much of this literature has been distributed already at the following places: Riverside hospital, county jail, Home of Friendless, Jesse Gilbert's drug store in Mechanicsburg, Pettit's drug store, Twelfth and Trimble, Union drug store. From the drug stores, in three different ends of the city, it can be taken out by any one desiring it, and at the institutions named it is for the use of the inmates. As the work enlarges these are other places to be included, and a wide field of active influence can be covered.

WANT ADS.

The small shop-keeper should realize that—just as he is able to buy stocks from the same wholesalers who sell to his competitors—he is able to buy advertising space on a smaller scale, of course, but in the same pages so effectively used by the big merchants.

That "little venture" of yours will grow quickly into a big one if you have the courage to advertise it.

You need never buy—except a trifle now and then—at a store that does not advertise. There are plenty of stores that pay you the compliment of advertising—and thus serve your interest and convenience—and they will appreciate your patronage.

Louisville, Ky., Jan. 22, 1907.

Commonwealth Life Ins. Co., Louisville, Ky:
Gentlemen—I received today settlement in full of policy No. 12764 for \$100.00 on the life of my husband, William O'Hara, who died Jan. 20, 1907, and I desire to thank you for your promptness in settling same.

This policy was only taken out on the life of my husband last April, and your company paid me in full, as your policies are in FULL IMMEDIATE BENEFIT, whereas other companies operating an industrial business in this State would have paid me only one-half, or \$50.00.

Again thanking you for your kindness and promptness in settling the above claim and assuring you that whenever possible I will recommend THE COMMONWEALTH to all parties desiring insurance.

(Signed) HANNAH O'HARE, 1227 Crop St.

Write a postal card to J. P. Nicholson, Superintendent of Industrial Department, Eagle Building, Sixth and Broadway, Paducah, Ky., and an agent will be glad to call and explain fully the many exclusive features of COMMONWEALTH Insurance. You do not obligate yourself in any way by talking it over.

Better Than a Bank.

Whether a Calloway pork producer a better investment than bank stock is not now debatable.

Mr. L. E. Radford, of Kirksey, is the possessor of a Berkshire sow that has produced him wealth aggregating at least \$375 in one year's time, and the sow is still in the possession of Mr. Radford.

For fear some will be skeptical about this matter we give an itemized account of sales from this money producer.

Within the past eleven months Mr. Tom Morris has paid Mr. Radford \$211.90 for hogs on foot; he has sold \$36.60 worth of fresh pork and killed and salted down 788 pounds of pork, besides his lard, sausage, bones, etc. The sow now has eleven piglets that are worth not less than \$2.50.

Our hat is off to Mrs. Sow, she is Calloway bred and born, and if we gave her more attention and tobacco less, we would soon realize the great difference.—Murray Ledger.

MANY DONATIONS TO CHARITY CLUB

Have Enabled Organization
To Care For Poor

Supplies Have Been Exhausted During Cold Weather of Two Weeks
—The Givers.

PLANS FOR THE NEXT YEAR.

Ambitious plans for the next year's work of the Charity club contemplate permanent arrangements, whereby the organization may take care of the poor in the summer time and prevent much of the suffering attendant on cold weather. A home, with an ample laundry and a woodyard is proposed to care for the relief of the immediate necessities of such as apply direct to the institution, and an enlargement of the free employment bureau is expected to care for many others. Possibly the organization will purchase its supplies at wholesale, thus making the funds go further and enabling the club to give more freely in cases of absolute want, where the donations are now greatly restricted.

The last two weeks have strained the resources of the Charity club to meet the demands of the cold and starving, and more funds, clothing, food and fuel are needed, as the supply has nearly been exhausted.

The following have recently contributed to the club:

G. C. Crambaugh, clothing; Dr. H. G. Reynolds, clothing; Mrs. Lightfoot, bedding and clothing; Mrs. A. O. Woolfolk, clothing; Mrs. Elbridge Palmer, clothing; Rev. Mr. Bourquin, clothing; Rudy, Phillips & Co., cloaks and hats; W. F. Bradshaw, clothing and cash; Mrs. M. Livingston, clothing; Mrs. Nell Morris, clothing; Mrs. Campbell Flournoy, clothing; Mrs. Thomas Thompson, clothing; Mrs. W. C. Kidd, clothing; Mrs. John Webb, clothing, West Kentucky Coal company, two tons coal; Central Coal company, two tons of coal; Henry Gockel, 50 loaves of bread; J. C. Porter, cash \$25; Mrs. Clarence Sherrill, \$5; Miss Ethel Morrow, \$5.

CHURCH TIMES LOSES AN ISSUE.

Editor Finds Misplaced Jokes and Suppresses Edition.

Milwaukee, Feb. 9.—The Church Times, the official organ of the Episcopal diocese of Milwaukee, will not appear for February. After being printed the entire edition was suppressed by order of Bishop Webb and Canon C. B. D. Wright, the managing editor. When Canon Wright took up the paper after it had been printed, he was horrified to find mingled with a portrait and eulogies of the late Bishop Nicholson, jokes and humorous stories and poetry of a decidedly secular not to say unsanctified nature. It was learned that the "make-up" man in making up the pages had to "fill in" with something, and finding a bunch of jokes and poetry that just fitted the gap, he slipped them in and sent the form to press.

SEVENTEEN ENGINES

Coaled at Chute Yesterday Without Any Delay.

Seventeen engines were coaled yesterday between 7 a. m. and 5 p. m. in the local Illinois Central shop yards by the locomotive coal hoist without a minute's delay. In fact, time was saved, and engine hostlers, and dispatchers suffered no inconvenience. Formerly when engines were coaled at the chute which burned Sunday night, running orders had to be secured from dispatchers. If the coaling was to be done within an hour of train time. The chute was located on the main line, and no engine without running orders was permitted on it within an hour's time of the arrival of any passenger train. Coaling in the yard is not done on the main line, and dispatchers have less work to do, and engine hostlers do not have to waste time in running a mile or two to the old chute.

Tax Complaints Today.

Today is the last day for protesting to tax assessment raises before the city tax book supervisors. All the week has been spent in hearing protests, and Monday the supervisors will begin noting the raises in the assessment books. They will later take up franchise taxation and will be in session two weeks longer, it is thought.

THE ADVICE WAS APPRECIATED

The 'Vegetable Prescription'
Was Filled Many Times

No Sufferer of Kidney or Bladder
Troubles or Rheumatism Should
Leave It Untried.

ANYONE CAN PREPARE IT.

That the readers of this paper appreciate advice when given in good faith is plainly demonstrated by the fact that one well-known local pharmacy filled the "vegetable prescription" many many times within the past two weeks. Most of these folks naturally bought our ingredients only and mixed them at home. The announcement of this simple, harmless mixture has certainly accomplished much in reducing the great many cases of kidney complaint and rheumatism here, relieving pain and misery, especially among the older population, who are always suffering more or less with bladder and urinary troubles, backache and particularly rheumatism.

Another well known druggist asks us to continue the announcement of the prescription. It is doing so much real good here, he continues, that it would be a crime not to do so. It can not be repeated too often, and further states many cases of remarkable cures wrought.

The following is the prescription, of vegetable ingredients, making a harmless, inexpensive compound, which any person can prepare by shaking well in a bottle: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Any first-class drug store will sell this small amount of each ingredient, and the dose for adults is one teaspoonful to be taken after each meal and again at bedtime. There is enough here to last for one week, if taken according to directions. Good results will be apparent from the first.

In Bankruptcy.

After declaring a final dividend in the Moses Schwab bankrupt matter Referee E. W. Bagby referred the case to Federal Judge Walter Evans yesterday afternoon with recommendations for a discharge.

Back To My Old Love

After two years' retirement from the retail drug business, having sold my interest in the Winstead Pharmacy in 1905, I have returned to my first love, and have opened a new and up-to-date drug store at the corner of Broadway and Seventh street. My stock is fresh and new throughout, containing no preparation or article that does not meet fully all the requirements of the pure food and drug laws. In fact, my entire line of drugs and chemicals was purchased since the enactment of the pure food and drug regulations and includes nothing deleterious to the health or under the government ban. The highest standard of remedies the purest of chemicals manufactured, and the most complete line of toilet articles and druggists' sundries will be carried in our stock. The prescription department will be under my personal supervision and none other than Registered Pharmacists will be permitted to compound prescriptions entrusted to our care. A share of your patronage is respectfully solicited. Prescriptions and medicines delivered free to any portion of the city.

THE THAW TRIAL

(Concluded from First Page.)

had met a similar fate to yours at the hands of this man."

"What man?" snapped Jerome.
"Stanford White," replied Delmas with the coolness of voice and manner characteristic of him and then he added still in the same tone:

"Who else?"

Judge Upholds Jerome.
Justice Fitzgerald held that the district attorney's suggestion was a good one and he thought the defense should lay a broader foundation to show insanity before proceeding along the lines suggested by Delmas' questions.

"We will proceed to do this as soon as possible," announced the attorney.

Mrs. Thaw declared that Stanford White, during the year which followed her experience in the room of mirrored walls, repeatedly sought to have her visit him alone. She refused she said.

The defense had Mrs. Thaw tell of another incident which has been cited in her life—her acquaintance with "Jack" Barrymore the actor. She said she had first met Barrymore at a party given by White the year following her introduction to the architect. She "thought him very nice" and twice he proposed to her.

"Foolish to marry Barrymore."
"White told me I would be very foolish to marry Barrymore," she said, "and my mother said so too, and we all quarreled and the upshot of the whole thing was that White said I ought to be sent away to school and I was sent to New Jersey."

After leading the witness to tell, in chronological order, of the incidents of her wedding with Thaw in Pittsburg, Delmas asked her if she had seen Stanford White after her return to New York from the honeymoon trip.

"Did you tell Harry Thaw of an episode in your life connected with Stanford White, and Abraham Hummel in New York between your return from Paris, in 1903 until Christ mas eve of that year?" he asked.

"No," replied the witness, with perfect composure, "I did not tell; until later."

"Did you ever tell him?"

"Please relate what you told Mr. Thaw."

White Continues Annoyance.
"He asked me how I came to speak to Stanford White after my return from Europe. I told him I was driving down Fifth avenue one day in a hansom cab with my maid and we passed Stanford White, I heard him exclaim:

"Oh, look at Evelyn."
"A few days later I was called to the telephone and it was Mr. White. He said:

"My, but it is good to hear your voice again," and said he wanted to come and see me. I told him I could not see him. He said it was very important that I should see him at once. He said he had had much trouble with my family and must see me. I asked if my mother was ill. He said it was a matter of life and death—he could not tell me over the telephone.

"So he came to see me at the Hotel Savoy."

"When he came in he tried to kiss me, but I did not let him."

Told of White and Hummel.

"Some time later I was riding down Fifth avenue in a hansom cab. I was going to see a doctor on Thirty-second street. I saw Mr. White in another hansom follow my hansom. I ran up the doctor's steps, but I was so nervous that I ran down again, and, jumping into the hansom, ordered the driver to drive as fast as possible to the Hotel Lorraine."

Evelyn swore that White enlisted the services of Abe Hummel, the attorney—recently disbarred—in an effort to get her to bring suit against Thaw on a charge of abduction; and that Hummel also sought her to bring suit against Thaw for breach of promise. According to Evelyn, she had no interest in either of the suits, being merely a "tool" in the hands of White and Hummel who she declared sought to raise a club over Thaw's head and "shake him down for blackmail."

Three Friends Arrested.
District Attorney Jerome had three of Evelyn's intimate chorus girl friends, Mazie Follette, Anna Crane and Edna Chase, arrested early today. Detectives are searching for the other two, Lottie Forsythe and Paula Desmond.

Jerome hopes to prove by these girls much of the relationship that existed between White and the artist model after her alleged seduction by him.

School "Mama" Must Not Go.
Tulsa, I. T., Feb. 9.—The board of education this afternoon issued an order forbidding teachers in the Tulsa schools to participate in functions of any kind during the school week. This leaves the "schoolmama" Saturdays and Sundays only on which they are unrestricted. The order does not meet with favor.

Stomach Distress is A Danger Signal

Gas on the stomach, belchings, pains and weakening perspirations resulting shortly after eating are the signs nature provides as stomach warnings.

The most general and only cure for such ailments is to promptly cleanse the bowels. If the proper physic is taken, relief is almost immediate, but because the proper physic is not taken, chronic cases of constipation, indigestion, dyspepsia and many other ailments that are directly due to these disorders are set up.

The physics usually taken—salts, pills, tablets, etc., do cleanse the bowels but not without causing a great loss of strength. The bowels cannot then perform their functions without another physic and continually a stronger drug is required, until a dangerous "pill habit" has been formed.

Dr. Caldwell's Syrup Pepsin

has a strengthening influence upon the bowels and intestines. It is pleasant to take, does not weaken or gripe, and never establishes the dangerous habit which most other remedies do.

Dr. Caldwell's Syrup Pepsin is sold by all druggists at 50 cents and \$1.00 per bottle.

ANN ARBOR BOYS STOP A SHOW.

Vandeville Performance Is Cut Off Because of Noisy Students.

Ann Arbor, Mich., Feb. 9.—

Students feeling a reaction after examination time crowded the Bijou theater here last night and before the first performance was over had created such a disturbance that the actors refused to go on with their parts.

Manager Rosenberg was compelled to cut out the second performance, and in anticipation of further trouble tonight will have a large force of detectives and special officers on hand.

The present occupant of the Washington plantation in Westmoreland county, Virginia, is named George Washington.
